

COVID 10 PLAN For
2021-2022 School Year

Latest guidance- this is fluid and may change Based on the Governor, Local Judge orders and Texas Commissioner of Education Guidance
We will update as guidance is received

In Person School

1. We will plan to have all students present at school and are NOT planning to offer virtual.
2. The Campus will remain a closed campus during school hours with visitors allowed. Parents needing to pick up kids for appointments will be allowed to sign them out through the glass window only.
3. No breakfast or lunch visitors will be allowed.
4. Unfortunately, this means the first day of school there will be no parents/guardians in the building and we will not be able to have meet the teacher night in person.

Medical Protocol

1. FACE MASKS are required to be worn in the building. Parents should supply these for their children and send them to school with these daily. This is subject to change with Governor orders.
2. Students or staff running fever should remain home
3. Attached is a color protocol of how we will handle possible exposure and exposure to COVID 19.
4. Parents/ Guardians are being asked to review the symptoms list and temperature checking for their children daily. However, we will not check each student daily as they enter the building.

Other Areas for consideration during in person school.

1. School Buses- We just bought new buses with air conditioning for all routes - YEA!
 - a. FACE MASKS and SEATBELTS must be worn on the bus
 - b. School buses will run normal routes with normal number of students on board
 - c. School buses will be sprayed each evening with disinfectant
2. Cafeteria-
 - a. Student will be assigned to table to sit at and be social distanced by grade level
 - i. For example: all first grade students will sit at the same table grouping with social distanced space away from the next grade level.
 - b. Tables disinfected between groups coming in to eat.
3. Water Fountains
 - a. No student will be able to drink from the fountain, but we are replacing the fountains with bottle fillers.
 - b. Students will be able have a bottle for water only in the classroom.

4. Restrooms
 - a. Bathrooms will be cleaned after every passing period.
 - b. Door handles and hallway common touch point areas will be cleaned after passing periods

UIL/ExtraCurricular activities-

1. Students must be present at school and at practice to participate in UIL/Extracurricular Activities. These activities expose the students to many other kids/schools/fans. If a student cannot attend face to face instruction, then the student will not be able to participate in extracurricular activities that expose the student further.

Home but Instructing Virtually

THIS WILL BE VERY DIFFERENT THAN WHAT WE DID March-May 2020

Parents may choose this option but it does limit student participation in extracurricular activities.

Instruction:

1. Parents will have the ability to sign out a computer per child for the school year. Agreement must be signed - Computers must return or pay for missing, not returned, or damaged computers at the end of year.
2. Grades prek-12 -Students will be required to log into class daily with their teacher at the normal class time- real time instruction will occur via online (zoom) meeting.
3. GRADING AND ATTENDANCE (90%) rule will apply- all assignments given in face to face must be completed by those entering the classroom remotely. Failure to complete assignments or be in attendance will result in failing grades.
4. Texas Essential Knowledge and Skills (TEKS) will be covered following the TEKS resource systems scope and sequence.
5. Presently -STAAR testing will occur either in person or remotely.
